Imre Budinszki's CareerOS record documents 454 unique projects, 11798.5 credited hours, and 1207 person-specific credited entries. The record shows a broad project-footprint pattern with average credited hours per project of 26.0. The strongest credited role pattern is Foreman. Primary evidence categories include Power Generation, Inspection / QC, Utility Infrastructure. Infrastructure exposure includes Bridges / Marine Infrastructure, Pipelines / Utility Crossings, Power / Cooling Water Systems. Major client/project exposure includes Stantec Manatee Cooling Pond, Underwater Construction Corporation, DBE Utility Services, Ferrovial - Webber.
